

Great Lakes Association of Science Ships: Vessel Coordination Workshop

For more than 25 years, the Great Lakes Association of Science Ships, has been hosting annual workshops focused on science vessel coordination and operation. The 2022 virtual workshop will include panels on staff and crew recruitment and training, science and monitoring, a roundtable on operational and supply-chain challenges due to COVID and other technical presentations.

The virtual workshop will take place on Thursday February 17, 2022 starting at 9:00 a.m. EST.
